

MORE MACHINE THAN MAN TECHNICAL RIDER

P.A. Requirements:

MMTM supplies P.A. and lighting when necessary.

If venue is equipped with a P.A., MMTM requires:

- Two XLR or 1/4 inputs without direct boxes
- No monitor mixes [Stage monitors should be OFF.]
- No stage microphones [Stage microphones should be OFF.]

MMTM controls entire mix including:

- ONLY direct-input instruments [no amplifiers]
- two vocal microphones
- in-ear stage monitors

Stage Requirements:

30 - 35 minute set

Minimum stage area of 20 feet wide and 10 feet deep

One hour sound check to check sound and video

Transition Details:

The transparent video screen, small lighting trees, and microphones are a EASILY removable.

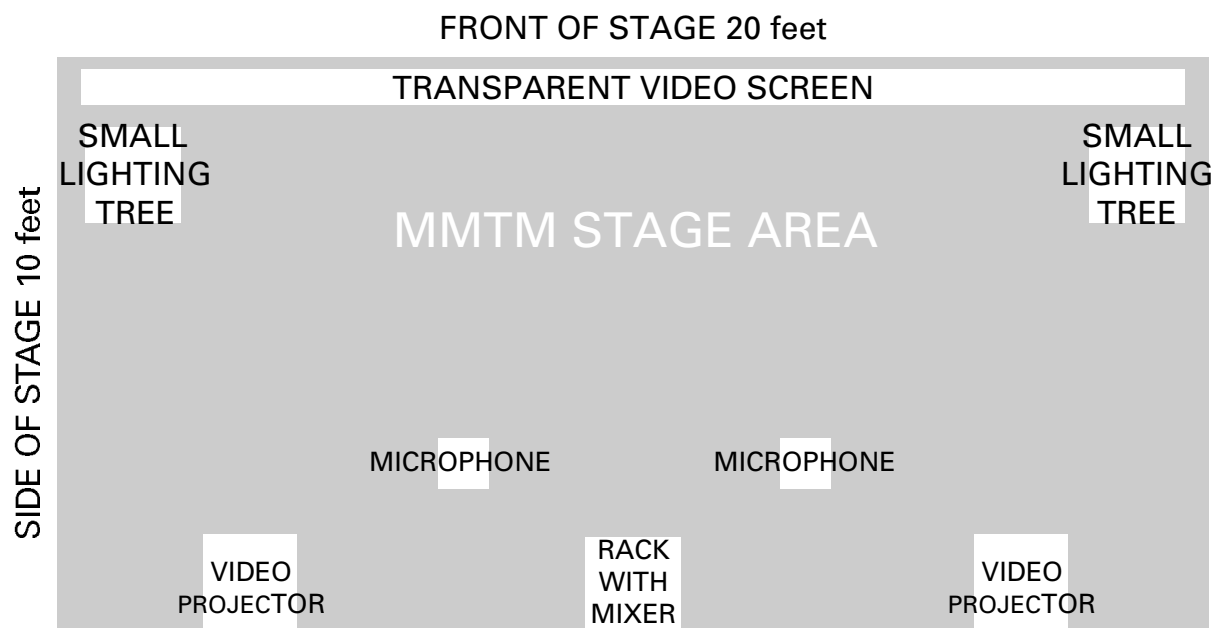

These elements are temporary and can be quickly moved on/off stage.

Rack and video projectors must be an IMMOBILE addition to the amp line between sound check and the MMTM set.

Financial Requirements:

Fees are negotiable. Please contact Rob to arrange fees appropriate to your event.

***Please feel free to contact Rob with any questions about this set up.
